

## **CHAD CARGILL ACT WORKSHOP**

**WHO:** ANY STUDENT WANTING TO RAISE HIS/HER SCORE

**WHEN:** Tuesday, January 9<sup>th</sup>, 2018      8:30 a.m. to 11:30 a.m.

**WHERE:** Red River Technology Center Seminar Room

**WHY:** Do you need a few extra points on your ACT to win certain scholarships? Or maybe you are a few points away from qualifying to get into college. Then this workshop is for you!

This workshop is a practical hands-on instruction session developed by Chad Cargill. While in high school, Chad took the ACT 18 times and raised his score from a 19 to a 32. This workshop is packed full of relevant, practical information on how to increase your ACT score as he did. It shows you that the ACT is beatable and that each test will ask you the same questions just worded differently. The workshop covers what will be on the test and how to master the techniques. The workshop is not a practice test. It covers general ideas about the ACT as a whole and the individual sections of English, Math, Reading and Science.

English (including what the test-makers are looking for and the relevant English rules needed for the test)

Math (including exactly what formulas and rules you will need to answer virtually every question)

Reading (including three strategies on how to best take the reading comprehension section)

Science (including common question types and strategies to understand and beat the science reasoning section)

Don't miss this opportunity. It's cheaper than other workshops, and it's the most practical workshop that's most importantly not just a practice test.

**COST:** \$30 per student

Book \$20
